The Peer Support Certification Process

Peer Support Certification is a confirmation of one's knowledge, skills, and experience as a peer supporter. Certification verifies one's alignment with the nationally endorsed Standard of Practice, and is recognized across Canada. The certification process takes approximately one year to complete and is divided into three stages.

Step One \$90 ^{plus tax}

Application for Certification as a Peer Supporter

Step Two \$440 ^{plus tax}

Assessment of knowledge through a written exam

Step Three \$750 ^{plus tax}

Completion of a practicum supervised by a Certified Peer Support Mentor and assessment of competencies

"Going through the certification process really affirmed my own knowledge and expertise as a peer supporter."

"My mentor was great. I thought I knew a lot about peer support but I still learned a lot talking to my mentor throughout my practicum."

Peer Support Canada

Developed by Peer Supporters for Peer Supporters

In 2010 the Mental Health Commission of Canada (MHCC) identified the need for a framework for the integration and promotion of peer support.

This work was led and driven by individuals with lived experience.

Almost 600 peer support workers and agencies were invited to participate in the project. This was followed by a series of in-person, cross-country consultations leading to the development of the framework.

The framework was shared back and validated by the peer support community and by regional peer support leaders, organizational leaders, and senior decision-makers.

The Peer Support Framework is the foundation of the Standards of Practice and the Core Values.
